Printable Vacation Bible School Name Tags

Use these name tags to equip your VBS volunteers to love kids by using their names. When we are intentional to consistently use a child's name, we are communicating we love and value him. We see her as an individual, unique from the other kids in your group.

Once you have downloaded the name tags, choose which template you will use and print enough copies for the kids at your VBS. I like to use card stock. Be sure to select "actual size" on your printer settings.

Cut using a paper cutter. The small gray lines at the edge of the document are crop lines. Use them to line up your pages, to cut the name tags.

Contact jen@thebestvbs.com if you have any questions.
