

KIDMIN SOCIAL MEDIA PLANNER TEMPLATE

An effective social media strategy for your children's ministry requires planning, but that doesn't mean it has to take up hours of your precious time! Use this week's free download to help you plan weeks' worth of social media posts at a time.

Print 1 copy of the first page and use it to choose one idea for each day to help you create a template plan for your ministry social media posts. Print multiple copies of the second page, then use it to map out your weekly posts, several weeks at a time!

Want to go deeper with your social media strategy? Check out our brand new online training: [The Ultimate Guide to Building a Social Ministry Strategy for your KidMin!](#) This free social media planner template is just one of the many bonus resources included in the download, and it walks you through how to implement an effective social media strategy for your children's ministry.
