

ADVENT FAMILY FAITH PLAYLIST

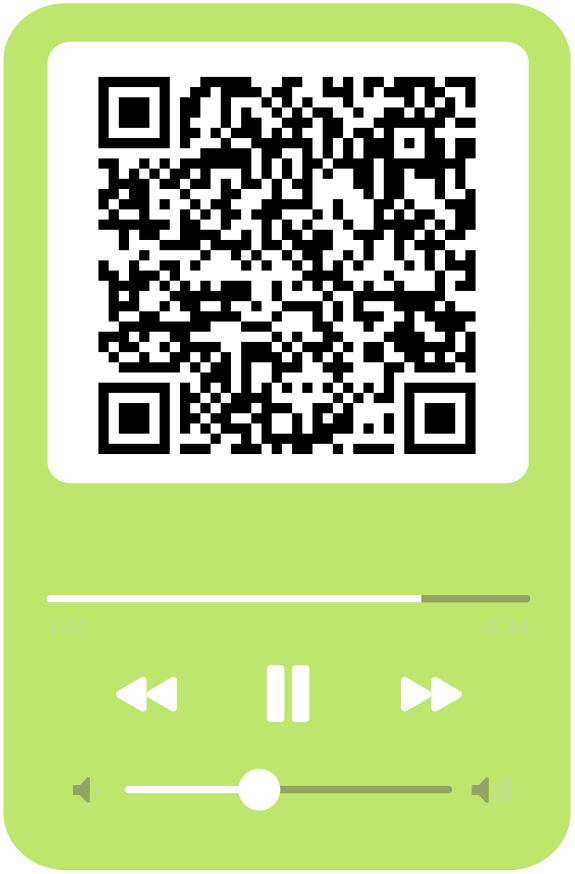

One of the best tools we have for helping those truths stick is music. Kids may not remember every point from a lesson months later, but they will often remember the songs they sang. A melody has a way of carrying truth with us long after Sunday is over.

So as you plan for Advent this year, **here** are a few ways you can use worship music to help kids experience the story of Christmas in a deeper way, and share this Advent Kids Worship Playlist Printable with the families in your church this Advent season! It's got a QR code that links to a curated mix of fun, Advent-centered songs that are fun, engaging, and full of truth. It's designed for the car ride, the kitchen, bedtime routines—anywhere life happens. It's a small tool that helps turn daily moments into lasting spiritual ones. Just print the printable, cut into half sheets, and share!

Find more Advent resources for your families **here**.
